

Hello Utah School Nutrition Managers!

**We are thrilled to invite you to Summer Team Up for School Nutrition Success workshop** from the Institute of Child Nutrition. This is a training for you and about you! The workshop includes panel discussions, breakout sessions, and networking opportunities.

This is a chance to connect with other managers and share resources, ideas, and information. We want you to come with your challenges and your ideas to share with your peers.

We are excited to offer the **first 60 registrants** a \$200 stipend to help with travel, hotel, and meals. *The Utah Department of Health, Healthy Living through, Environment, Policy & Improved Clinical Care (EPICC) program receives funds from the Center of Disease Control to help provide professional development and technical assistance to support a healthy school nutrition environment in our state.*

**Stipends will be paid out after the conference.** To receive the stipend participants will be required to fill out a form at the training.

We hope to see you there!

Sincerely,  
Schools Team at Utah Board of Education & EPICC Program at Utah Department of Health
