Utah Healthy Community Program Guide

Public health enhances the quality of life in Utah by supporting healthy living in your community. It touches everyone in your community – from the minute you’re born, throughout your entire life. Take a closer look at what public health programs are available in your community to make your life better.

Purpose of the guide

This guide highlights programs that address the prevention and management of chronic diseases and health disparities experienced by Utahns. These programs offer access to health promotion and healthy lifestyle opportunities.

Goal of community health programs

These programs aim to reduce and prevent illness and death through healthy lifestyles and self-management.

How to use the guide

The table on pages 4 and 5 lists the community health programs and briefly provides:

- Program description
- Time commitment of participant
- Target audience
- Website for more Information

Fact sheets on each program are provided for more detail on:

- Program description
- Program benefits
- What is provided for participants
- Resources & contact information
- Why to make a referral

Alzheimer’s and Related Dementias

**PROGRAM DESCRIPTION**
The Alzheimer’s and Related Dementias Program provides educational resources for patients, caregivers, and health care professionals. The agencies listed below offer a variety of classes for patients, families, caregivers, and health care professionals.

**PROGRAM BENEFITS**
- Increases knowledge and awareness of signs and symptoms of Alzheimer’s and related dementias.
- Resources, home care, support groups, education, and events for caregivers.
- Improves the dignity and quality of life for people with dementia and their families.

**RESOURCES & PROGRAMS**
- Alzheimer’s Association toll-free Helpline 1-800-272-3900 or www.alz.org/utah
- National Institute on Aging-Alzheimer’s Disease Education and Referral Center
  www.nia.gov/Alzheimers
- Local Area Agencies on Aging are charged with the responsibility of providing a comprehensive array of services to, and advocating for, the needs of seniors residing in their areas. www.hsdaas.utah.gov
- Caregiver Support Program assists caregivers with information and assistance, free classes, conferences and events, support groups, consultations, and limited respite services. Call 385-468-3280 for more information.
- For a list of support groups visit www.alz.org/crf, choose Alzheimer’s Association Programs and Events, click on Support Groups, and search by your location. Or call 800.272.3900. You will find both caregiver support groups as well as groups for those in the early stage of Alzheimer’s, dementia, or Mild Cognitive Impairment.
- The Alzheimer’s Association provides in-person workshops and online programs to help caregivers gain knowledge about the disease process and caregiving techniques. For a list of available programs visit www.alz.org/utah and click on Education or call 800.272.3900.
- The Alzheimer’s Association TrialMatch is a free, easy-to-use clinical studies matching service that connects individuals with Alzheimer’s, caregivers, healthy volunteers and physicians with current studies. http://www.alz.org/research/clinical_trials/find_clinical_trials_trialmatch.asp

**WHY MAKE A REFERRAL?**
- Researchers believe that early detection will be key to preventing, slowing, and stopping Alzheimer’s disease.
- Active management of Alzheimer’s and other dementias can improve quality of life through all stages of the disease for individuals with dementia and their caregivers.
- 75% of adults report not being knowledgeable about the disease¹.
- Only 19% of people aged 60 and older who reported worsening confusion or memory loss have discussed their symptoms with a healthcare provider².

PROGRAM DESCRIPTION
The Arthritis Foundation Exercise Program is a community-based recreational program specifically designed to teach adults with arthritis how to exercise safely. Trained instructors cover a variety of range-of-motion exercises, endurance-building activities, relaxation techniques, and health education topics. All of the exercises can be modified to meet participant needs and abilities.

PROGRAM BENEFITS
Participants completing the program report experiencing:
- Improved functional ability
- Decreased depression
- Decreased pain
- Increased confidence in one’s ability to exercise

WHAT IS PROVIDED TO PARTICIPANTS
Classes meet two or three times per week for an hour. One session is typically 8 weeks long, but many locations offer ongoing classes and participants can continue attending as long as they wish. Each class offers:
- Range of motion exercises and stretches
- Endurance exercises
- Strength building exercises
- Health education
- Relaxation techniques
- Social interaction

WHY MAKE A REFERRAL?
- 1 in 5 Utah adults (410,000) report having been diagnosed with Arthritis¹.
- 46.7% of adults with arthritis report being limited in their usual activities, work, or social activities¹.
- 23.3% of adults with arthritis report engaging in no physical activity¹.
- 48.5% of adults with arthritis report too little physical activity to meet national recommendations².

SOURCES
1. 2014 Utah Behavior Risk Factor Surveillance System (BRFSS) Report
2. 2013 Utah BRFSS Report
WHY MAKE A REFERRAL?

- About 64% of those with asthma in Utah reported at least one trigger in their home.1
- About 36% of those who reported 3 or more triggers in their home also reported missing at least one school day in the past year due to asthma.1
- The asthma-related emergency department rate in Utah (2013) was 23.3 per 10,000 encounters.2

PROGRAM DESCRIPTION

This program is offered only in Salt Lake and Utah Counties. In this free program, two health educators from Salt Lake or Utah County Health Department will come to the participant’s home for 3 in-home visits lasting between 60-90 minutes. Participants will also receive two follow up calls 6 and 12 months after completing the program. Priority is given to those that have severe or uncontrolled asthma.

PROGRAM BENEFITS

Each in-home visit provides asthma education specific to you and your home.

- Visit one: Participants will learn more about how to manage asthma. Topics include: asthma symptoms, triggers, medications, inhaler technique, and asthma action plans. Participants will make a plan to improve asthma control.
- Visit two: Participants will walk through the home to identify asthma triggers, then make a plan to reduce these triggers.
- Visit three: Participants will review progress on controlling their asthma and reducing triggers.

WHAT IS PROVIDED TO PARTICIPANTS

- One-on-one asthma self-management education.
- An in-home assessment to help reduce asthma triggers.
- Eligible participants may be referred to local housing agencies for assistance with remediating asthma issues in the home.
- Participants may also receive a pillow and/or mattress cover to reduce dust mite exposure.

BeWise (WISEWOMAN) Program

WHY MAKE A REFERRAL?

- Cardiovascular disease is the leading cause of death of women in the United States\(^1\).
- Risk Factors for heart disease include diabetes, overweight and obesity, poor diet, and physical inactivity\(^1\). All of which are targeted through the BeWise Program.
- 60.5% of Utah adults are overweight or obese\(^2\).
- People in Utah with low household income and fewer years of formal education report higher rates of tobacco use than the general population\(^2\).

PROGRAM DESCRIPTION

The BeWise Program provides free cardiovascular risk screening to low income, underinsured, or uninsured women aged 40-64. The program also includes health coaching and is specifically designed to help women set and reach their health goals through free education and resources. Trained educators cover a variety of health topics, including exercises, diet, smoking cessation, and support options. All of the education is tailored to meet the participant’s needs and abilities.

PROGRAM BENEFITS

Participants completing the program report experiencing:

- Healthier eating
- Increased exercise
- Increased motivation to live a healthier lifestyle
- Improved blood pressure values
- Weight loss
- Reduced total cholesterol values

WHAT IS PROVIDED TO PARTICIPANTS

Cardiovascular screenings include:

- Weight
- Height
- Body Mass Index
- Blood Pressure
- Cholesterol
- Glucose (blood sugar) or A1C

Health coaching

- An opportunity to speak one-on-one with a health coach
- Tools and resources to support health goals participants set

**PROGRAM DESCRIPTION**

The Utah Cancer Control Program provides breast and cervical cancer screening exams to underserved women who are 40-64 years of age, have low incomes, or are a member of an underserved population. These cancer screenings and education are provided to women throughout the state through local health districts and other health care providers.

**PROGRAM BENEFITS**

Women participating in this program benefit by:

- Receiving early detection and treatment if a cancer is found, which improves survival rates
- Reduced costs for cancer treatment when cancer is found earlier

**WHAT IS PROVIDED TO PARTICIPANTS**

- Pap test (if necessary)
- Pelvic exam
- Clinical breast exam
- Mammogram
- Health education

---

**WHY MAKE A REFERRAL?**

- 1 in 8 women in the United States will be diagnosed with breast cancer; that’s one every 2 minutes\(^1\).
- Breast cancer is the leading cause of cancer death among Utah women\(^2\).
- Clinical trials and observational studies show that routine screening with mammography can reduce breast cancer mortality by about 20% for women of average risk\(^3\).

---

2. 2012 IBIS Data
WHY MAKE A REFERRAL?

- In Utah, 7.1% of adults, including 12.0% of American Indians, reported being diagnosed with diabetes in 2014\(^1\).
- Diabetes self-management education results in improved A1C, blood pressure, and cholesterol levels as well as fewer complications and reduced rates of hospitalizations\(^2\).
- Diabetes can be one of the most challenging health conditions to treat.
- Diabetes is costly. One out of every five health care dollars is spent on diabetes health care\(^3\).
- Diabetes education reduces the risk of hospitalization for diabetes complications\(^2\).

PROGRAM DESCRIPTION

Diabetes education is a collaborative process that helps people with diabetes learn how to successfully manage their disease. The goal of diabetes education is to help people with diabetes practice self-care behaviors every day and be as healthy as possible. Diabetes self-management education/training is provided by diabetes educators.

PROGRAM BENEFITS

- Real-life guidance and coaching to help people understand exactly how to best manage their diabetes, and to feel supported while doing it.
- It focuses on seven self-care behaviors so that people with diabetes can be healthy and fully enjoy life:
  - Healthy eating
  - Being active
  - Monitoring blood sugar levels
  - Taking medication
  - Problem solving
  - Healthy coping skills
  - Reducing risks

WHAT IS PROVIDED TO PARTICIPANTS

- Education and support on all aspects of diabetes care by diabetes educators in individual or group settings.
- Individualized plan that includes the tools and support to help make the plan easy to follow.

Enhance Fitness

PROGRAM DESCRIPTION
Enhance Fitness focuses on dynamic cardiovascular exercise, strength training, balance, and flexibility — everything older adults need to maintain health and function as they age. Led by a certified instructor, classes are held three times a week in community settings and are a great workout. Each class may include up to 25 participants and participants may either be amongst peers of their own level of fitness or a group of various fitness levels from the frail to the more fit older adult.

PROGRAM BENEFITS
Participants completing the program report experiencing:
· Increased strength
· Greater activity levels
· Decreased depression
· Improved social function

WHAT IS PROVIDED TO PARTICIPANTS
Classes meet three times per week for an hour. Each class offers:
· 5-minute warm-up
· 20-minute aerobics workout that gets participants moving, or a walking workout to lively music
· 5-minute cool-down
· 20-minute strength training workout with soft ankle and wrist weights (0 up to 20 pounds)
· 10-minute stretching workout
· Balance exercises throughout the class
· Social interaction

WHY MAKE A REFERRAL?
- Seven of the top ten causes of death in the US are caused by chronic disease\(^1\).
- 17% of Utah adults report having two or more chronic conditions\(^2\).
- In 2009, the healthcare costs associated with chronic disease exceeded $586 million\(^3\).

PROGRAM DESCRIPTION
Living Well with Chronic Conditions (Chronic Disease Self-Management Program) is a program for people with chronic health problems. The workshops empower participants to take an active role in managing their health by giving them the key skills needed to manage any chronic health condition. The program addresses common symptoms and worries from all types of chronic disease and illnesses. Family members and others who support people with a chronic health condition are also encouraged to attend.

PROGRAM BENEFITS
Participants who have completed a workshop demonstrate:
- Increased exercise
- Increased ability to do social and household activities
- Less depression, fear, frustration, and worry about their health
- Reduction in symptoms like pain
- Increased confidence in their ability to manage their condition
- Decreased emergency department visits and hospitalizations

WHAT IS PROVIDED TO PARTICIPANTS
Workshops are facilitated by two trained instructors and meet once a week for six weeks; each class lasts 2 ½ hours. The workshop covers the following topics:
- Pain and fatigue management
- How to make an action plan to set and achieve attainable goals
- Problem solving
- How to deal with difficult emotions
- Physical activity and exercise
- How to make decisions
- Healthy eating
- Communication skills
- Working with your health care professional

PROGRAM DESCRIPTION
Living Well with Diabetes teaches participants skills to manage their diabetes and other chronic conditions. In addition to addressing the physical and emotional symptoms of diabetes, this program also aims to help participants better communicate with their health care providers and make healthy day-to-day decisions. The workshop is goal-orientated and shown to improved health outcomes for people looking to better manage their diabetes.

PROGRAM BENEFITS
Participants who have completed a workshop demonstrate:

- Increased exercise
- Increased ability to do social and household activities
- Less depression, fear, frustration, and worry about their health
- Reduction in symptoms like pain
- Increased confidence in their ability to manage their condition
- Decreased emergency department visits and hospitalizations
- Increased knowledge for dealing with diabetes specific symptoms

WHAT IS PROVIDED TO PARTICIPANTS
Workshops are facilitated by two trained instructors and meet once a week for six weeks; each class lasts 2 ½ hours. During the workshop the topics covered include:

- Pain, fatigue, and stress management
- Monitoring blood sugar and managing hyper/hypoglycemia
- How to make an action plan to set and achieve attainable goals
- Problem solving
- How to deal with difficult emotions and complications
- Physical activity and exercise
- Healthy eating
- Communication skills and working with your health care professional
- Foot care

National Diabetes Prevention Program

PROGRAM DESCRIPTION
Eighty-six million Americans now have prediabetes—that's 1 out of 3 adults! Of those 86 million, 9 out of 10 of them don’t even know they have it. Without intervention, 15% to 30% of people with prediabetes will develop type 2 diabetes within 5 years. With numbers like that, it's important to learn about prediabetes and take action.

The National Diabetes Prevention Program (National DPP) is an evidence-based lifestyle change program with the goal to prevent or delay the development of type 2 diabetes and heart disease among at-risk Utahns.

PROGRAM BENEFITS
- Empowerment through education and application
- Movement toward a healthier self, one step at a time
- Sustainability through behavior change
- Increased physical activity
- Weight loss

WHAT IS PROVIDED TO PARTICIPANTS
This is a 12-month intensive lifestyle change program with 16 weekly and 6 monthly group sessions focusing on:
- Behavior change
- Healthy eating strategies
- Ways to become more physically active
- Getting 150 minutes of physical activity per week
- Achieving a 5-7% weight loss

The sessions are facilitated by trained lifestyle coaches that encourage, coach, and motivate participants to adopt sustainable lifestyle changes.

RESOURCES

WHY MAKE A REFERRAL?
- It is estimated that 35% of adults are at high risk for developing type 2 diabetes.
- Type 2 diabetes can be prevented or delayed by lifestyle changes.
- The Diabetes Prevention Program has been shown to reduce the incidence of type 2 diabetes by 58%, and this risk reduction is sustained over time.

SOURCES
PROGRAM DESCRIPTION
Quitting tobacco isn’t easy. The Utah Tobacco Quit Line (1-800-Quit-Now) is a free telephone coaching program that can help tobacco users end their addiction. Waytoquit.org has information about the quit line as well as online coaching. Health professionals can make referrals by going to waytoquit.org/refer-patients.

WHAT IS PROVIDED TO UTAH’S TOBACCO QUIT LINE PARTICIPANTS
- A trained coach will talk with a participant to help them develop a personalized quit plan
- Receive up to five individually tailored sessions with a coach
- Get a self-help booklet and information about online resources
- Opt in for text messaging reminders and support
- Receive information about how to help a friend or family member to quit
- Discuss options for medications, including free Nicotine Replacement Therapy to eligible callers (youth are not eligible for NRT)

WHAT IS PROVIDED TO ONLINE COACHING PARTICIPANTS
- A personalized quit plan
- A quitting coach
- Guided processes for setting a quit date, conquering urges, choosing a medication, or getting social support
- Interactive lessons, worksheets, videos, articles, and podcasts
- Track progress and monetary savings
- Free Nicotine Replacement Therapy for eligible participants

Stepping On

PROGRAM DESCRIPTION
Stepping On is an evidence-based fall prevention program that reduces falls among participants. Falling is not an inevitable result of aging. Through practical lifestyle changes and community partnerships, we can substantially reduce fall risks, keeping older adults living independently with a good quality of life. Stepping On addresses known risk factors and promotes behavior change. Professional guest experts include a pharmacist, optometrist, physical therapist, and community safety officer.

Eligible Participants:
- Are age 60 years or over
- Are at risk for falling, have fallen in the past year, or are fearful of falling
- Are living in a home or apartment
- Are not suffering from dementia

PROGRAM BENEFITS
- 31% reduction in falls among participants
- Decreased fear of falling
- Increased performance of safe behaviors

WHAT IS PROVIDED TO PARTICIPANTS
Classes meet once a week for two hours. One session is 7 weeks long. Classes include interactive discussion and storytelling to promote adult learning. Education topics include: falls and risks, strength and balance exercises, medication review, home hazards, safe footwear, vision and falls, community mobility, and safety in public places.

WHY MAKE A REFERRAL?
- Falls pose a major threat to the health and independence of aging adults.
- Falls are the leading cause of fatal and nonfatal injury for older adults.
- The combined direct costs of fall-related hospitalizations and emergency department visits in Utah are $123 million annually.
- Evidence-based programs, such as Stepping On, can prevent falls by addressing risk factors, such as muscle weakness, balance deficits, vision impairment, and home safety.

PROGRAM DESCRIPTION
The Walk With Ease Program is a community-based, group walking program specifically designed to help individuals start and maintain a safe walking routine. Trained instructors cover how to warm up and cool down, stretch, and set personal exercise goals. Each class also includes health education topics related to arthritis and exercise. Participants must be able to stand for at least five minutes.

PROGRAM BENEFITS
Participants completing the program report experiencing:

- Improved functional ability
- Decreased depression
- Decreased pain
- Increased confidence in one’s ability to exercise

WHAT IS PROVIDED TO PARTICIPANTS
Classes meet three times per week for an hour. One session is 6 weeks long. After the initial session, participants are encouraged to maintain their walking routine by forming independent walking groups. Each class offers:

- Pre-walk discussion covering topics related to exercise and arthritis
- Warm-up and stretches
- Self-paced 10- to 40-minute walk
- Cool down and stretches
- Social interaction

Walk With Ease can also be delivered in a self-directed format with a workbook and weekly interaction with a trained leader to guide the participant.
